

NEW

716U™ UWB

WASTE,
ON/OFF-HIGHWAY

DRIVE

THE WEIGHT-SAVING DRIVE TIRE THAT CARRIES MORE PROFITABILITY.

The all-new 716U™ Ultra Wide Base drive tire is designed specifically for waste, recycle and on/off-road severe service operations where maximizing payload capacity really counts. And with its reliable all-season traction and durable construction, the 716U UWB is the perfect drive tire for the job.

INCREASED PAYLOAD CAPACITY

Load Range M (22 PR)

Replacement of traditional duals with our four ultra wide base tires reduces unsprung weight without compromising total carrying capacity, allowing for a larger payload per trip.

AGGRESSIVE TRACTION

Powerful Zig-Zag Grooves

Enhance traction and wet weather grip by efficiently evacuating water away from the tread.

BUILT TO LAST

Advanced Compound

Resists scrubbing, cutting and chipping for long original tread life.

Zero Degree Belt

Adds stability for a consistently stable footprint and long, even wear.

Funnel Shaped Step Grooves

Prevent stones and debris from reaching the bottom of the groove where casing damage can occur.

Sidewall Protector

Extremely durable casing with an extra thick sidewall resists damage from potholes and curbing and allows for increased retreadability.

6 YEAR **THREE RETREADS**
CASING WARRANTY

Backed by a 6-year three retread casing warranty.
